1969 302 Engine

The 1969-70 302 H.O. engine was created in 1968 for the SCCA's 1969 Trans-Am road racing series. Fitted to the factory-made Boss 302 Mustangs of 1969-70, it is a unique Ford small-block featuring a thin-wall high nickel content casting. It differed substantially from regular 302s, featuring 4-bolt mains, screw-in freeze plugs, higher nickel content, and cylinder heads using a canted valve design developed for the 351C, which made its debut in late 1969 Mustangs.
