#### Installation Guide

That may not be excessive given that the internal water collection tank in your LG 8,000 BTU Portable Air Conditioner, Model # LP0817WSR has a capacity of about 2 pints. That would equate to 7.2 pints of condensate in a four hour period if you were using the DRY (dehumidification) mode which extracts 1.8 pints of water per hour.

### Air Conditioner

Portable AC units must be ventilated. They produce hot air that needs to be exhausted through a hose, so they should be placed near a window. Most portable air conditioner units include a window kit with instructions for easy installation. Dual-hose portable air conditioners provide more energy efficiency and quicker cooling than their single ...
